

Nature Temple

Built using 40605 Lunar New Year VIP Add-On Pack, depicting a Nature Temple.

A small bridge allows you to walk out from a small Japanese temple to look out at the water around. The temple is decorated with Chinese lanterns and has a cookie, tea pot and cup, along with a bunny to keep you company.

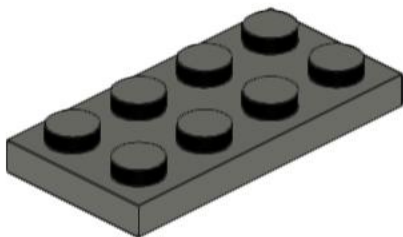

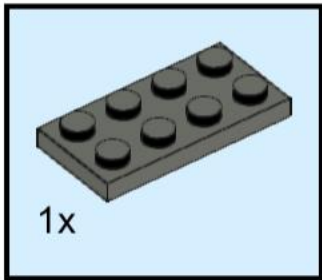

Another bunny sits on the path, which ends with red and gold dragon ornaments. Water lilies, bamboo, and a duck complete the scene.

Note: lantern section is not included in this build as we haven't yet worked out how to manipulate string parts with Studio.
